About me

IT professional. Interest in learning new things and exploring about their present. Enhance experience in graphic and web development with high standard; work with technology like WordPress, svelte, Javascript and Gatsby. Self-motivated with extensive experience and a strong educational background in management; exceptional communication skills and a demonstrated ability to create and manage cohesive.

Core Skills

Hobbies

Experience

Project Documents *awnas contracting ~ 2018*

My job was to plan, budget, oversee and document all aspects of the specific project. I work closely with upper management to make sure that the scope and direction of each project are on schedule, as well as other departments for support.

Freelancer *remote work ~ 2014*

As a freelancer, I work with the client to craft its design into the final product. I use and leverage the power of my skills to deliver the final before the deadline. Revise the work until the client is satisfied.

UX/UI design *as a hobby ~ 2014*

I love a simpler design that explains things well. I like balance, hierarchy, white space and good design. I enjoy collaborating with graphic designers to craft elegant, modern user experiences. I've been building user interfaces for over a decade.

Education

BS electrical engineering
FAST National University 2018
The Electrical Engineering program helps me to use the techniques, skills, and modern engineering tools, necessary for engineering practice and communicate effectively.

Pre-engineering
Air base inter college 2014
The intermediate of Science (FSc. Pre-Engineering) degree provides general exposure and education in many aspects of basic Scientific Enquiry. This program develops the basic scientific skills of the students in fields of Physic, Chemistry, and Mathematics.

Matriculation (Science group biology)
Dar-e-Arqam School 2012
The main goal of the curriculum was to get knowledge in subjects like Biology, Chemistry, English, Physics, and Math.
